

How to Disable Common Pop-Up Blockers

Listed below are some of the more popular Pop-up Blocking software Packages, and the workarounds in order to disable them to view our Programs. There are literally dozens of Pop-Up blocking software packages, so it is next to impossible to document the procedure for disabling each one. In general however, most Pop-Up Blockers will install themselves either within the browser toolbar, or within the Windows Taskbar along the bottom right corner.

Microsoft Service Pack 2 (SP2)

With the release of Microsoft's Service Pack 2, Pop-Up Blocking is now directly integrated into Internet Explorer. **Note that by default Pop-Up blocking is Enabled within SP2**

Listed below is the location of the menu within Internet Explorer:

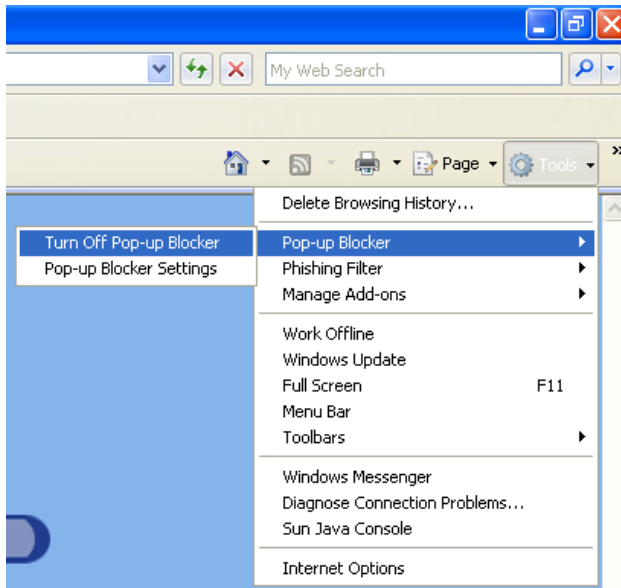

Click on **Turn Off Pop-up Blocker**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

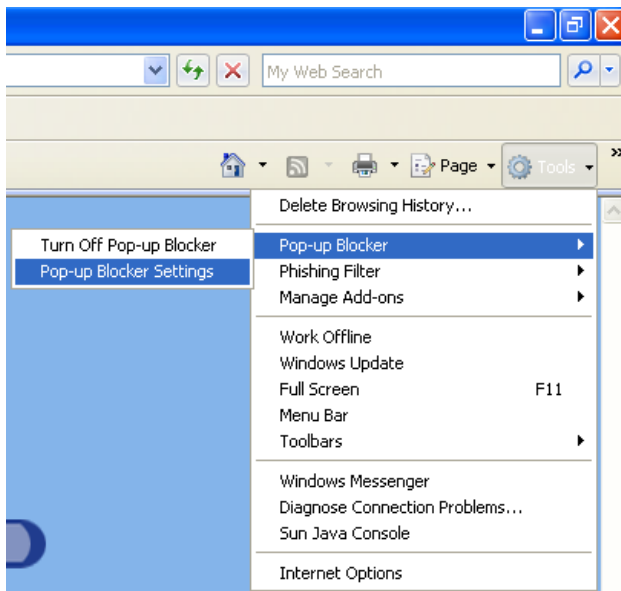

Microsoft Service IE7

With the release of Microsoft's IE7, Pop-Up Blocking is directly integrated into Internet Explorer. **Note that by default Pop-Up blocking is Enabled within IE7.**

Listed below is the location of the menu within Internet Explorer IE7:

Alternatively the pop-up blocker can be set to block all but the sites you add to the settings.

Yahoo Toolbar

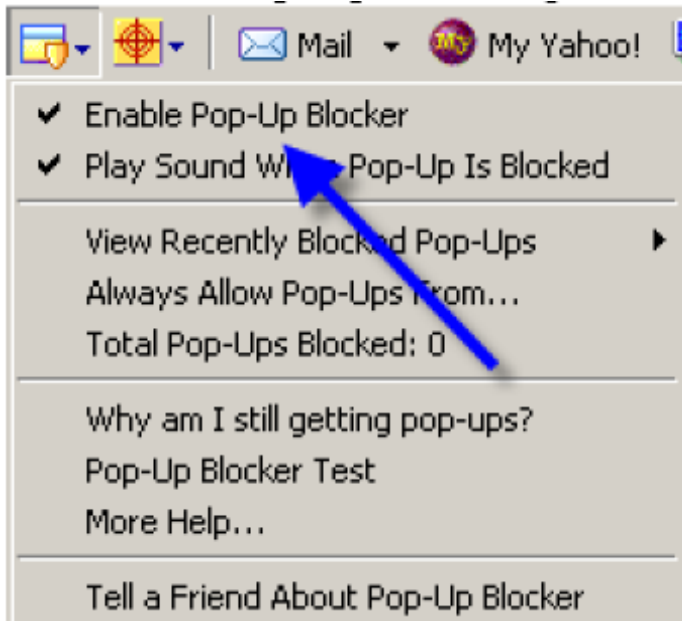

Probably the most popular toolbar, this program allows several other functions besides Pop-Up Blocking. Listed below is how the bar will appear within IE:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the Down arrow to bring up the Menu:

Uncheck the entry **Enable Pop-Up Blocker**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

Google Toolbar

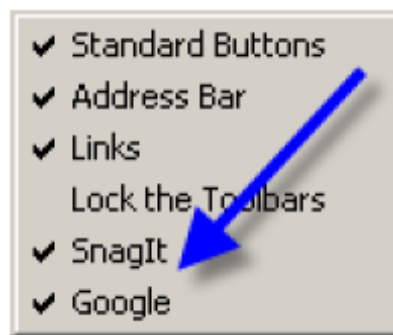

Google has their own brand of toolbar that is very similar to Yahoo's. It offers other features on top of Pop-Up blocking, and looks like the following:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, right-click on the toolbar and a Drop-Down will appear with a listing of all of the Toolbars.

Uncheck the entry **Google**. You will now be able to view the Program. Once completed, to re-enable the Google Toolbar, right-click again in the toolbar area and recheck **Google**.

Important Note:

Changing the icon to reflect that Pop-Ups are now allowed will NOT allow our Programs to run, even though it shows the following:

You MUST disable the entire Toolbar.

Google Toolbar – another version

If you try to click a link that would open a pop-up window, and you see the  icon, there is a Google pop-up blocker installed in your browser. This pop-up blocker is part of a menu bar:

There are two ways to remove this:

1. Set the pop-up blocker to allow pop-up windows to open (pop through) from this page only.

- While on the page where you want to be able to access popups, click

 (the pop-up button).

- Confirm that the button label has now changed to .
- Try reopening the link to confirm that it can be displayed.

2. Turn off the Google pop-up blocker for all pages.

- Click  to open the Settings menu.
- Click  to open the Google Toolbar Options window.
- From the Popup Blocker section of the "More" tab, de-select the "Enable Pop-up Blocker" checkbox.

- Click OK to close the dialog box.
- Try launching the link to confirm that the pop-up blocker has been disabled.
Tip: If the pop-up blocker is disabled, the toolbar button will be removed.

MSN Toolbar

MSN Toolbar is the latest of the toolbars, but is starting to gain popularity. As with Yahoo and Google Toolbars, it allows other features on top of Pop-Up Blocking. Below is the MSN Toolbar:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the Down arrow to the right of the text to bring up the Menu:

Click on **Allow Pop-ups**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

AOL Toolbar

AOL Toolbar is another fairly new toolbar from one of the big Online Providers. Like the others, this Toolbar offers multiple features, and appears in the browser as follows:

The following icon is the Pop-Up Blocker:

To allow Pop-ups to appear, merely click on the icon. You should now see the following:

Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can click the icon again to re-enable their Pop-Up Blocker.

Pop-Up Stopper

One of the more popular Pop-Up Blockers available, this software is designed solely for preventing Pop-Ups. It will install an icon in the lower right corner of your Start Menu Toolbar

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, right-click on the icon and a Pop-Up menu will appear with a list of options:

Uncheck the option **Block pop-up ad windows**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.
